## **The Chartered Institution of Building Services Engineers (Republic of Ireland Region)**

*Building Air Tightness - Presented by Brian Shannon of Building Envelope Technologies*

### ***Building Air Tightness***

**Presented By**

***Brian Shannon***

***Building Envelope Technologies Ltd.***

#### **Synopsis of Lecture**

Achieving building airtightness requires;

-  Careful design,
-  Clear presentation of an effective airtightness strategy within tender/procurement documents,
-  Accurate and consistent reproduction of the design by all contractors
-  Accredited Testing of the building to confirm compliance.

It is important that all members of the team working on the design and construction of a building have good background knowledge of the principles underlying building airtightness and the approach to design, construction and on site management that is necessary to successfully build airtight to improve the energy performance of our buildings.

**Date:** Wednesday 3 February 2010.

**RSVP:** Monday 01 February 2010 – Numbers need to be confirmed.  
Anna Maria Murphy, Arup, Tel No. 021 422 3274 or
